“Open Shows” give those of us who are learning to learn without stress or expectation.

Having the Open Show before the Champ Shows is the ideal time to “Warm Up” dust off the cob webs ready for the Champ Show. I for one was very grateful I used the Open show to warm up as I saw some potential problems and was able to work around them in the Champ show. So for all us “Newbie’s” use the Open shows to practice and warm up before the Champ shows. They really do help.
